10. Open for Discussion:
 - Bathroom issues: Stalls need doors, stocking of toilet paper and paper towels; Dr McCoy stated they are keeping atleast three open due to code, they are doing hall sweeps and new custodian has been hired – bathrooms are top priority; one parent wanted to know if District will consider VAPE Alarms as deterrants to students using these (already at Pine Richland, City Charter, all suburban schools) – not only cost but how to implement since a restorative justice plan is needed for people who are now

identified/get into trouble. Lots of parents interested in this in the chat and PTO president suggested they form a committee and meet with Dr. McCoy who said he wanted to learn more

- Parent volunteers to help with spirit wear sales
